# Quickstart Guide
## Wi-Spy Lucid

More on Lucid

ANTENNA

ACCESSORY

1. Screw tri-band, RP-SMA antenna into the approporiate port.

2. Download "Chanalyzer Lite" on PC[1] or Mac for free. Additional features can be unlocked on PC using the paid version of Chanalyzer. Software is available at metageek.com/downloads/chanalyzer/ or at oscium.com/quickstart

3. Insert cable into both the accesory and the host device.[2]

4. When the software is connected to the Wi-Spy Lucid hardware, the icon in the bottom right will show connected.

CONNECT TO HOST DEVICE

[1] No support for iOS, Android without additional hardware.

[2] Power is supplied from host device.
